

Executive Summary

File: 1b138b5445d94aa7_Internal_Assessment_2.pdf
Type: PDF document
Severity: Critical
Risk Score: 100
Malware Present: Yes
Family: No evidence found.
Infection Status: Infected
Persistence Status: No evidence found.
Threat Active: No

Malware evidence was observed. 421 IOC(s) were extracted from the artifact.

Recommended Actions

Action	Evidence
Preserve the original artifact and acquisition chain.	Cryptographic hashes and filesystem metadata were collected.
Isolate the host and perform containment.	Malware indicators were observed in the uploaded file analysis.
Re-scan with organization-approved YARA rules and endpoint telemetry.	No invented findings were used; this recommendation is tied to collected evidence only.
